ENVIRONMENTAL SERVICES SINCE 1999

Emergency spill response team on 24-hour standby:

Robin's EnviroVac is a Bakersfield Certified Woman-Owned Business serving Oil & Gas, Agriculture, Energy Utility and Construction industries. We provide a variety of **environmental and industrial maintenance services** to companies and government services throughout California.

Robin's EnviroVac was founded in 1999 by a then 30-year Kern County oil industry veteran. Robin Brassfield-Cooper focused on providing outstanding customer service, honest communication, and exceptional employee relations to expand operations. The company is now a vertically-integrated, full-service operation handling everything from emergency spills to routine industrial maintenance.

ABOUT ROBIN'S ENVIROVAC

Robin Brassfield-Cooper launched Robin's EnviroVac in 1999 by serving oilfield customers in the Bakersfield area with one vacuum truck and one employee. The 45-year oil industry veteran foresaw a more efficient way of operating by providing:

- Exceptional customer service
- A vertically-integrated, client responsive decision-making process
- Low overhead costs for competitive pricing

The strategy paid off and Robin invested the profit into expanding the business and in "giving back" to the community that made it all possible. The result is an environmental services company with long-term, highly-trained employees, a fleet of vacuum trucks, guzzlers, hydro excavators, service trucks, pressure washers, and water trucks - all serving the State of California.

Honesty and integrity are two words that come up often when describing Robin's business dealings, community support and charitable activities.

Terry D. Ellis CET, RHSP Senior Policy Advisor at BEST Consultants, Bakersfield, California - Oil & Energy:

"First Class, that is what comes quickly to my mind when I think about Robin and the way she approaches running her company. Robin is very well respected and often times called upon to be a strong Advocate and Voice for the Service Industry. Her experience and Management Skills are very accomplished and evident in all she gets involved in. I count on Robin's advice and trust her wisdom on many issues and recommend her without reservation."

Mission and Values

- Our daily mission is to provide exceptional service and honest communications to our customers and supply chain partners.
- To provide stable employment for our workers which contributes to healthy families and a healthy community.
- We place a high value on safe workplaces, *yours and ours*, reporting zero injuries since our inception in 1999.
- We believe in "Giving Back" to the community that has aided our success by supporting several local charities, business associations, and youth development organizations in Kern County.

What We Do?

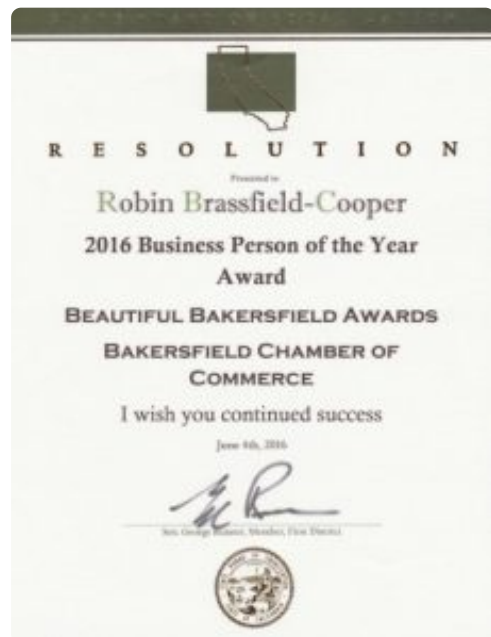

Located in Bakersfield, we provide a wide range of environmental remediation and industrial maintenance services to companies and government agencies throughout California.

Our [Primary Services](#) include: Hydro Excavation, Vacuum Truck Services, 24-hour Emergency Spill Response, Tank & Vessel Cleaning, Pipe and Line Cleaning, and Chemical Site Maintenance.

Who We Serve?

Robin's EnviroVac is a local, certified Woman-Owned Business serving Oil & Gas, Agriculture, Energy Utility, Construction, and Industrial companies.

Call [661-747-6462](tel:661-747-6462) for Environmental Remediation and Emergency Spill Response services throughout California.

EQUIPMENT

Robin's EnviroVac is a vertically-integrated environmental services company offering a wide range of equipment to fit our customers' needs. We have a fleet of vacuum trucks, guzzlers, hydro excavators, service trucks, pressure washers, and water trucks - all staffed with fully-trained, experienced operators.

Our equipment passes through a 3-step maintenance process coordinated by our in-house Certified Mechanic:

- Daily routine checks by driver/operator
- 30-day inspection and maintenance
- 90-day detailed inspection and maintenance

Our methodical approach and rigorous maintenance schedule ensure that our trucks and equipment are kept in "emergency response" mode at all times.

INDUSTRIAL & ENVIRONMENTAL CLEANING

Robin's EnviroVac is a vertically-integrated environmental services company providing a wide array of services to Oil & Gas, Agriculture, Energy Utility, Construction, and Industrial companies throughout California.

We have a fleet of vacuum trucks, guzzlers, hydro excavators, service trucks, pressure washers, and water trucks - all staffed with certified, experienced operators.

We provide Environmental Remediation and Emergency Spill Response services throughout California.

HYDRO EXCAVATION SERVICES

Hydro excavation can transform a potentially unsafe extraction into a safe one. Hydrovac excavation uses high-pressure water to break down the earth and an industrial vacuum to remove soil for disposal. Ideal for:

- Line location/identification
- Pipeline excavation
- Trenching
- Cleaning cellars
- Utility excavation & post-hole drilling
- Underwater dirt/debris removal
- Pot holing
- Day lighting

EMERGENCY SPILL RESPONSE

Our in-house Certified Mechanic has our trucks and equipment in top-notch shape and ready for immediate mobilization. We have experienced crew members ready to be dispatched to emergency spills throughout California.

We believe in the importance of good environmental stewardship toward leaving a healthy planet for future generations. This motivates us to adopt industry best practices and operate with a high level of safety awareness on all of our projects. Hazard and non-hazardous material removal and disposal. 24 hour 7 days a week on call crews for all environmental releases.

Environmental spill response team on 24/hr. standby: [661-333-7808](tel:661-333-7808)

VACUUM TRUCK SERVICES

This is where it all started for Robin's EnviroVac when in 1999, Robin launched the company as owner-operator of their first vacuum truck serving the Bakersfield oil industry.

We have several "EnviroVac" vacuum trucks with skilled operators available for:

- Well Stimulation Services
- Tank Removal
- Roper pump maintenance
- Drilling Rig Support
- Removal and disposal of Hazardous Material
- Removal and Delivery of Chemicals, Oil and Water
- Batch treatments for enhanced oil recovery and corrosion control

PIPE AND LINE CLEANING

Unobstructed pipes and lines are a key component to reaching maximum production capacity. Our goal is to help you reach your production targets.

Robin's EnviroVac has the expertise and skilled workforce to handle any situation from emergency blockages to regularly scheduled pipe and line maintenance.

- High-pressure water and chemical flushing to resolve oil well freeze.
- Pipeline inspection services to identify potential risks.
- Oil spill cleanup
- X-ray and inspection preparation
- Prep for Barton flow recorder and pressure testing
- Prep for welding and cutting

Ask us about setting up a routine maintenance schedule for your operation.

TANK & VESSEL CLEANING

It's "safety first" when it comes to tank and vessel cleaning. We're Confined Space Certified and Confined Space Rescue.

- We provide hot and cold pressure washing for industrial tanks, bins, tank railcars, silos and hoppers.
- Hydrovac services, hydro blasting and cutting, vacuum truck, and waste disposal are available.
- Regular tank and vessel maintenance can reduce corrosion, identify potential problems, and reduce downtime.

CHEMICAL SITE MAINTENANCE

- We have an emergency chemical spill response crew available 24-hours a day, 7 days a week. Confined Space Certified and Confined Space Rescue personnel available.
- We perform chemical transfers and deliveries.
- Clean, degrease, and descale containments and tanks.
- Batch treatments for enhanced recovery and corrosion control.
- Cleaning for demolition and storage.
- Liquid vacuum trucks for waste removal and disposal.

OILFIELD & JOB SITE SAFETY: ROBIN'S ENVIROVAC

SAFETY PRACTICES

Zero occupational illnesses and injuries has been a goal of Robin's EnviroVac since its inception in 1999 and we have succeeded to date. An organization's commitment to safety is defined by a company's leadership. At Robin's EnviroVac, safety starts at the top with the Founder placing a high value on employee relations, health, and safety. Operations Manager Matt Brassfield and his Health & Safety Manager arrange necessary training and education to ensure safe work environments for all employees.

EMERGENCY RESPONSE

We understand that a practiced, well-rehearsed emergency spill response team prevents injuries, protects the environment, and saves lives. We provide continual employee training and education to prepare for a variety of environmental releases.

We have a fleet of vacuum trucks, guzzlers, hydro excavators, service trucks, pressure washers, and water trucks - all staffed with fully-trained, experienced operators. We comply with Federal, State and OSHA regulatory practices.

HEALTH AND ENVIRONMENT

We're committed to ensuring a safe, clean environment. After all, we live and work in the same communities. We use sustainable business practices to reduce our operating costs and pass some of the savings to our valued clients.

We believe in supporting a sustainable, reliable workforce ready and able to serve our customers and engage with their families.

We're committed to healthy, sustainable communities by providing support to local charitable causes, business associations, youth development and scholarships.

We believe in being a good corporate citizen by engaging positively with local stakeholders.

SAFETY RECORD

We're proud to state that we've never had an OSHA-recordable injury since the company's founding in 1999.

Safety awareness is a key component for bringing projects to a successful conclusion.

Our Health and Safety Manager brings the company's safety strategy to life implementing programs, conducting safety awareness campaigns, organizing regulatory training, and communicating client worksite safety protocol.

A COMMUNITY MINDED COMPANY

Robin's EnviroVac practiced Corporate Social Responsibility years before it started trending as a risk management strategy. It was called "good corporate citizenry" where business leaders engaged with their customers, employees, community leaders, fellow residents and other stakeholders to enhance the community they all share.

Robin Brassfield-Cooper is the personification of *good corporate citizenry*. Her community support is wide ranging and far reaching impacting a significant number of residents.

Youth Mentoring

Robin's EnviroVac is highly active in youth development initiatives. Ms. Brassfield-Cooper states, "I am very active in organizations that provide scholarships for youth. I have a passion to mentor kids and to encourage them to continue their education."

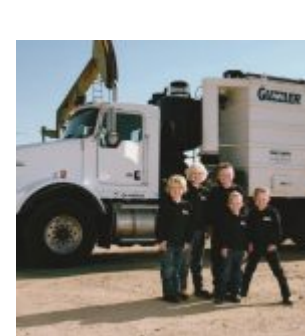

We also support several youth sports and local Boys and Girls Clubs.

Community Charity

It's important to give back to the community that has contributed to our success. We support several local charities to lend a hand to those less fortunate.

Women Business Leadership

Naturally, a women-owned business has a special interest in developing future women business leaders. We support the Alliance of Women in Energy, Distinguished Young Women of California, Woman's Club of Bakersfield, and Women's Business Enterprise National Council.
